## Call us to find out how you can capitalize on the **EAST COAST ADVANTAGE®**

Incorporated in 1990, East Coast Metal Systems serves as a full-service fabricator of engineered architectural metal and interior/exterior envelope systems. Our customers rely on access to high-quality MCM panels and custom architectural trims with significantly reduced lead times. We offer a comprehensive 70,000 square foot metal facility, fully-tested systems, and a full range of customization options backed by experience in markets across the United States.

## Services

- Pre-Production Services
- Secure-Scan 3D Laser Scanning
- Metal Panel Fabrication
- Fabrication Services
- Field Supervision & Installation
- Corporate Identity Programs
- Historic Restoration
- Green Building Compliance

We are factory certified ACM/MCM fabricators with access to all of the major manufacturers and offer a wide range of code approved attachment systems through those relationships.

- Reynobond
- Larson
- Alucobond
