Our Goal

Kalkreuth Roofing and Sheet Metal provides students with real world **responsibilities** and the valuable **experience** needed to succeed in the construction industry. Our students stand out academically and as prospective new hires in the industry.

Objectives

- To **familiarize** students with the construction industry and the process of planning, design, support, and field conditions.
- To **introduce** students to the complex inter-relationships which exist between the various tasks and participants in construction projects.
- To **expose** students to the numerous management functions that must be performed within Kalkreuth Roofing and Sheet Metal.
- To **aid** students in acquiring specific job skills that will enhance their value to the construction industry when they begin their careers.

Who is eligible?

Students who are **currently enrolled** in a four year degree program or graduate program and hold a current **GPA of 2.5** or higher are eligible. Students simply need to acquire a written recommendation from an instructor at the educational institution where they are currently enrolled.

Kalkreuth Roofing and Sheet Metal is always looking for new talent to join our team. We strongly believe that **co-op/internships are an important tool** in recruiting, developing, and retaining innovative people in our industry. We offer co-op/internships throughout the fall, spring, and summer semesters.

We want to talk to students who are interested in the following career paths:

Project Management

Estimating

Safety

Engineering

Sales

Accounting

Human Resources

Students will be assigned a **Mentor** for the duration of the co-op/internship and will have the opportunity to evaluate their experience. We will pair each student with a Mentor who matches their personal goals and will make the most positive impact on their experience.

It is our goal to **obtain, train, and maintain** the next generation of industry leaders.

The Stats

- We have successful, active relationships with more than **20 colleges**, universities, and technical schools and are continuing to expand our reach each year.
- We recently had our largest intern class to date with nearly **25 students** across all of our geographic division locations.
- More than **75%** of our students throughout the history of the program were with us as interns for two or more semesters.
- More than **60%** of our current Estimators, Project Managers, and Safety Personnel developed through our co-op/intern program.
- Kalkreuth Roofing and Sheet Metal maintains a co-op/intern hire rate of **+50%** upon graduation.

Success Stories

"I was an intern as a senior at West Virginia University. After I graduated, I was hired on as a full-time estimator, and the experience I gained as an intern made all the difference."
—Eric Haverty, Estimator

"I was an intern for Kalkreuth during my junior and senior years at the University of Cincinnati. Now I'm working for Kalkreuth full-time and currently managing projects totaling 600,000 square feet."
—Paul Novak, Project Manager

"I was an intern with Kalkreuth for two semesters while I was attending the University of Akron. Now I travel to jobsites around the country and run the 3D laser scanner."
—Kyle Sowinski, Field Engineer
